#### MG Dufresne

I am drawn to the making of sculptural vessels that often occur as functional works. I'm interested in the ways clay and atmosphere speak to history, relics of violence, and possibility.

#### Heather Hitt

My work is primarily finished in a wood or soda kiln. I love the way the atmosphere in the kiln applies the final surface design on the pieces - I call it the serendipitous approach to firing.

#### Blue Water Pottery

##### Jeremy Noet

I make useful, relaxed pottery that is fired to 2400 °F in a gas kiln- resulting in vibrant pieces that become everyday companions.

**10 Dawn Sodd**   
360-224-7607  
2216 Donovan Ave.  
Bellingham 98225

I make vessels with decorative surfaces using a variety of techniques including sgraffito, Mishima, and applied clay sprigs. My inspirations come from nature and I strive to create objects that give pleasure at the same time as they invite frequent use.
