Sandra Harper

My creations are hand built and finished with various processes, obvara, horsehair, soda firing and underglaze painting. They consist of orbs and wall hung pieces.

Ruth Hesse

I employ a combination of surface design techniques including sgraffito, Mishima and underglaze transfer using a vocabulary of dots, dashes, X's, squiggles, cloud forms, text and cooties.

Beverly Larsen

Incorporating whimsy, I'm concentrating on planters and vases and experimenting with shapes and glazes.

Jesse Rasmussen

My work is an exploration into the natural world and how humans relate to it.

 @jesseceramics

Dan Stockwell

My ceramics are a collection of my perspectives and memories, travels and love of the Pacific Northwest, translating my watercolor background onto clay with underglazes.

 @dstock54

Janis Taylor

I enjoy working with underglaze transfers, raku firings and experimenting with Malcolm Shino glaze. I like the unexpected and impulsive adjustments to my pieces.
